2. The following is an examiner's statement of reasons for allowance:

While the prior art of record does disclose switching to a lower flow rate at a predetermined flow amount before reaching a target total flow amount, the prior art of record neither discloses nor suggests that the flow rate should be reduced at a predetermined flow amount prior to reaching a target total flow amount, that flow amount being a function of the flow rate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "*Comments on Statement of Reasons for Allowance.*"
